Key

	Garden waste (optional chargeable service)
	Paper & Card bin + Mixed recycling bin. Also separately: Bags of batteries, Textiles, and small electrical items
	General Waste
	Food Waste
	Day changed due to national holiday

This calendar shows the collection days for each of the bin types for each week using a coloured block in the rows above each collection day. Weekly collections alternate between Recycling and General waste weeks. Some parts of the county have Recycling on the same week as other parts who have General waste. These are identified as **A** or **B** in the heading. Garden waste is a chargeable option and may be on Recycling week or General waste week depending on your location.

You may need to use the council website initially to check which of these patterns is appropriate for you. Note that Green bin collections are suspended for several weeks in December/January. The relevant dates for 2026 have not yet been published – this calendar will be updated if necessary when these are confirmed. If the normal collection day needs to be altered, e.g. due to a Public Holiday, then the revised date is outlined with a Red border.

**This version is probably correct for future bank holiday collections based on previous years. It will be updated if the predictions are incorrect.**
